The Freightliner Sprinter — the commercial van that launched many imitators — will help you sprint ahead of your competition.

The most advanced commercial van on the road today just took another giant leap forward. In addition to a 2-stage turbo diesel engine, Best-in-Class payload, cargo volume, and interior standing height, the Freightliner Sprinter incorporates advanced safety innovations as well as legendary reliability. The optional 4x4 drive train can help you defeat challenging road and weather conditions as well.

The Sprinter also features Crosswind Assist, the only crosswind-mitigation system in the commercial van segment. This highly advanced standard feature gently engages individual brakes at highway speeds to quickly help stabilize your Sprinter Van and help assure safety and control in strong, gusting crosswinds.

With a class-leading maximum of 563.6 cu. ft.² of cargo space, the advantages don’t end there. Extended service intervals of up to 20,000 miles help you reduce maintenance costs and vehicle downtime.

While our latest Sprinter Vans continue to raise the bar for innovation and technology, they still hold true to our core values: to create vans that deliver an extraordinary level of performance, durability, and safety to every owner.

Experience the Freightliner Sprinter, the commercial vehicle that helps accelerate your business, raise productivity, and lower the total cost of ownership.

“**The best full-size van for cargo and passenger purposes.**”

— Edmunds

**SPRINT AHEAD OF THE REST.**

“**The best full-size van for cargo and passenger purposes.**”

— Edmunds
Don’t let bad weather ruin your good reputation. We’re the only manufacturer that will help you get to the job with an on-demand 4-wheel drive commercial van. The Sprinter 4x4 features higher wading depth, a low-range gear, and a standard V6 turbo-diesel engine that delivers powerful torque when you need it most.

Plus, it’s the only 4x4 that combines Load-Adaptive Electronic Stability Program (ESP®) with Electronic Traction System (4-ETS®) to help maintain stability and control by adjusting to road conditions. The Sprinter 4x4 is designed to help keep you safe and on time in challenging road and weather conditions. For other vans, this may seem like going above and beyond. For us, it just means going to work.

WEATHER. OR NOT.

STANDARD HIGHLIGHTS:               HIGHER WADING DEPTH                I               LOW-RANGE GEAR               I               V6 TURBO DIESEL ENGINE               I               LOAD-ADAPTIVE ESP®

The Sprinter 4x4 option is available in select Cargo, Crew, or Passenger Van configurations.

“The addition of four-wheel drive means [Sprinter] now offers capability in this segment that newcomers like the Ford Transit and Ram ProMaster do not...[and] enhances the appeal.”  
— autoblog.com

“The bar-range gear accommodates a wide variety of challenging road and weather conditions.

The Sprinter 4x4 is the only 4x4 that combines Load-Adaptive Electronic Stability Program (ESP®) with Electronic Traction System (4-ETS®) to help maintain stability and control by adjusting to road conditions. The Sprinter 4x4 is designed to help keep you safe and on time in challenging road and weather conditions. For other vans, this may seem like going above and beyond. Diesel engine/one.sup

4-cylinder inline/one.sup

Displacement: 2,143 cc

161 hp @ 3,800 rpm

Rated torque: 265.5 lb-ft @ 1,400–2,400 rpm

Electronically controlled Direct Injection with Commonrail

2-stage turbocharging

Rear-wheel drive

7-speed automatic transmission

Fuel type: Ultra-low-sulfur diesel/one.sup

Tank capacity: 24.5 gallons

Battery: 12V/95 Ah, alternator 14V/200A

The engine that drives your business is powered by some of the most advanced technology found in any commercial van. Accelerate performance with a standard 4-cylinder turbo diesel engine that saves you up to 18% on fuel costs versus the 6-cylinder and can lower your total cost of ownership significantly over its working life. For heavy-duty Sprinter applications, an available V6 turbo diesel engine with a 5-speed transmission is the ideal choice. Plus, the optional 4x4 drivetrain with on-demand 4-wheel drive will keep you going even when the weather and road conditions turn bad.

You need torque that’s available when the light turns green, when merging onto a highway, and especially under load. The Sprinter’s standard engine delivers powerful torque — with virtually zero turbo lag — for performance and acceleration you can feel.

ACCELERATE PERFORMANCE.

The engine that drives your business is powered by some of the most advanced technology found in any commercial van. Accelerate performance with a standard 4-cylinder turbo diesel engine that saves you up to 18% on fuel costs versus the 6-cylinder and can lower your total cost of ownership significantly over its working life. For heavy-duty Sprinter applications, an available V6 turbo diesel engine with a 5-speed transmission is the ideal choice. Plus, the optional 4x4 drivetrain with on-demand 4-wheel drive will keep you going even when the weather and road conditions turn bad.

You need torque that’s available when the light turns green, when merging onto a highway, and especially under load. The Sprinter’s standard engine delivers powerful torque — with virtually zero turbo lag — for performance and acceleration you can feel.
Crosswind Assist® can gently engage individual brakes to quickly help stabilize your Sprinter Van and boost safety in strong, gusting crosswinds. This standard feature helps you ensure that your vehicle remains in its lane at highway speeds.

The Load-Adaptive Electronic Stability Program (ESP®) dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

Collision Prevention Assist/one.sup/one.sup is a radar-based proximity warning system that can issue visual and audible warnings when vehicles traveling ahead come within a potentially dangerous distance. In emergency situations, boosted braking pressure assists automatically to help prevent rear-end collisions.

Lane Keeping Assist/one.sup/zero.sup can provide you with visual and audible warnings if the vehicle leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

Your Freightliner Sprinter features dozens of landmark safety innovations that help protect your cargo, your passengers, and your business.

Continuing our heritage as the industry’s safety leaders, Freightliner Sprinter offers Crosswind Assist® as a standard feature on 2500 models. Sudden, unexpected crosswinds can sometimes cause a vehicle to leave its driving lane. At speeds over 50 mph, the vehicle may use a gentle, course-correcting brake application to help stabilize it in strong, gusting crosswinds.

Plus, as the only van in its segment featuring standard Load-Adaptive Electronic Stability Program (ESP®), the Sprinter helps you perform your job with less worry. This dynamic handling system actively intervenes to help ensure that your Sprinter Van stays firmly under your control. With available advanced safety systems such as Blind Spot Assist®, Lane Keeping Assist®, Highbeam Assist, and Collision Prevention Assist/one.sup/one.sup, we’ll help keep you secure today—and down the road.

LEADING YOU TO SAFETY.

SAFETY
Don’t just keep up with your competition—pass them like a Sprinter. Built smarter from the ground up, the Sprinter Cargo Van created the blueprint for the hardworking commercial van. Over the course of five million miles and 17,000 quality checkpoints, the Sprinter was rigorously tested to ensure that your business is powered by an advanced, spacious, and reliable commercial van.

The Sprinter Cargo Van’s cavernous interior space, tall standing height, available Super High Roof, and class-leading payload capacities give you all the room you need to succeed. A turbo diesel engine and class-leading service intervals of up to 20,000 miles can help raise your productivity and lower your cost of ownership.

If the strength of your business relies on the performance of your cargo van, the Sprinter has everything you’re looking for—and more.

SMART. AND STRONG.

**STANDARD HIGHLIGHTS:**
- Crosswind Assist
- Class-leading interior standing height
- Rear doors open 270 degrees
- Wide side-door openings
- Class-leading payload

**OPTIONAL HIGHLIGHTS:**
- Super High Roof
- Low-range 4x4
- Lashing rails
- Cargo tie-downs
- Side wall paneling

"Every van owner secretly wishes he or she had a Sprinter." — Truck Trend

With up to 1,524 cu. ft. of cargo space, the Sprinter offers plenty of room to work.

Super High Roof option gives the Sprinter a class leading interior standing height of seven feet, giving you the freedom to take your business to new heights.

A standard 4-cylinder turbo diesel engine offers up to 18% better fuel efficiency than the 6-cylinder model, helping your business lower its operating costs significantly.

In addition to the class-leading 270-degree fold-back rear doors, the Sprinter is also available with a driver-side sliding door, allowing you clear rear access in even the tightest situations.

The standard Super Single tire configuration on the 3500 model provides Best-in-Class payload without sacrificing the cargo-loading capacity that is lost with the larger wheel wells of dual-wheel rear axles.

Whatever you do, Freightliner has the Cargo Van to fit your business. From plumbers and painters to contractors and caterers, more and more businesses rely on the Sprinter’s class-leading capabilities, advanced innovations, and low total cost of ownership to help them grow stronger.

Standard Crosswind Assist can help keep your van under tight control at highway speeds. Extended length and available Super High Roof models increase cargo volume and customization possibilities. And you’ll appreciate interior ergonomics and connectivity capabilities that make you as comfortable on the road as you are at home.

If you work in conditions affected by harsh climates and less-than-ideal road conditions, the Sprinter Cargo Van offers an optional 4x4 drive train, with on-demand 4-wheel drive. Powered by a spirited V6 turbo diesel engine, the Sprinter 4x4 Cargo Van keeps your business moving even in harsh weather and driving conditions.

A manageable driving position and impressive handling make the [Sprinter] van pleasant and surprisingly maneuverable around town, while electronic aids help fight the wind gusts at speed. — Edmunds

An impressive interior standing height of up to 6'3" provides greater passenger comfort with plenty of room to move.

The Freightliner Sprinter Passenger Van offers transportation with unrivaled style, safety, and innovation. First-class features include room for up to 12 people, an interior standing height of up to 6 ft. 3 in., a spacious rear storage area, ergonomic durable rear passenger seating with individual headrests, and integrated 3-point seat belts at each seating position.

Your advantages don’t stop there. An optional 4x4 model assures greater traction, safety, and sure-footed handling in a variety of weather and road conditions. An optional V6 turbo diesel engine, as well as advanced safety features including an available rearview camera, make it a strong choice for driving your business ahead.

Select from our configuration options and create the Sprinter Passenger Van that fits your business best.
Choose between two wheelbases (144" and 170" — both with GVWRs of 11,030 pounds), and build the Sprinter Cab Chassis/Cutaway¹ that works best for you.

Whether you’re building a state-of-the-art ambulance, RV, luxury limousine, or box delivery vehicle, the Freightliner Sprinter Cab Chassis/Cutaway¹ is the perfect way to begin. With Best-in-Class payload² its refined yet rugged platform is built for big thinkers — like you.

Powered by a standard 4-cylinder turbo diesel engine that lowers fuel costs by up to 18% versus the 6-cylinder, the Sprinter Cab Chassis/Cutaway¹ is compatible with a vast range of bodies and features rack-and-pinion steering, independent front suspension, and road-tested reliability. A flat, unobstructed frame rail, available roof- and rear-wall deletion, and plenty of wiring options help you create a customized vehicle that fits your business perfectly.

The lightweight, sturdy frame offers straight-line stability and roll resistance to help you drive with confidence, regardless of the load. Two available wheelbases, both featuring GVWRs of 11,030 pounds, and the most advanced safety features available in any cab chassis/cutaway offer incredibly sound reasons to build your business on the ultimate base.

BUILD ON THE ULTIMATE FOUNDATION.

STANDARD HIGHLIGHTS: BEST-IN-CLASS PAYLOAD¹ / BODY & CONVERSION SOLUTIONS / 26.4 GALLON FUEL TANK / FLAT FRAME RAILS / RACK-AND-PINION STEERING / 96" EXTENDED EXTERIOR MIRRORS

OPTIONAL HIGHLIGHTS: MULTIFUNCTION STEERING WHEEL

Retail Loan
These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as aftermarket products, in one contract.

Complete Advantage Lease
Everyone has a budget, and when it comes to running your business, you can appreciate the value of even, predictable expenses. Complete Advantage Lease offers one consistent payment for your leased vehicle and includes coverage for preventive maintenance and wear and tear items plus an Extended Limited Warranty.

Complete Advantage Lease includes:
• Fixed monthly payment
• Preventative maintenance
• Extended Limited Warranty coverage
• Replacement of common wear items

FMV Lease
• A closed-end lease agreement is also known as a “walkaway lease,” since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all of the obligations of the contract, subject to certain return conditions and mileage restrictions.

TRAC Lease
• A Terminal Rental Adjustment Clause (TRAC) Lease does not require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income.
• Owners are responsible for the residual value of the vehicle.

Zero-TRAC Lease
• Offers many of the same benefits as a TRAC, but is a fully amortized lease that offers ownership of the vehicle at lease end with little or no cash outlay.

SIMPLIFIED — AND SMART— FINANCING SOLUTIONS.

Simplified — and Smart— Financing Solutions.

Extended Limited Warranty** (ELW)
We understand how vehicle downtime can impact your business. Protect one of your most valuable investments with the no-hassle convenience of a Freightliner Sprinter Extended Limited Warranty.**

The Freightliner Sprinter Extended Limited Warranty** offers several attractive features:
• Repairs by factory-trained technicians utilizing high-tech diagnostic equipment
• Repairs completed with genuine Sprinter Parts
• No deductible or co-insurance coverage required
• No approvals required for repairs
Choose the plan that fits your Sprinter and your business:
• 1-year, up to 100,000 miles
• 2-year, up to 125,000 miles
• 3-year, up to 150,000 miles
• 4-year, up to 175,000 miles

Roadside Assistance**
All Freightliner Sprinters come standard with our 24-hour Roadside Assistance Program** and expert advice 24/7 through the Freightliner Customer Assistance Center. Roadside Assistance** covers your Sprinter, even after the warranty period (additional charges apply).

Prepaid Maintenance
Save time and money by prepaying for routine services. Simply pay for your Sprinter’s maintenance in advance and lower your ownership costs as you protect against potential unexpected cost increases for parts and service down the road.

Prepaid Maintenance helps you in your business in many ways:
• Save money—up to 30%* on routine maintenance costs, including parts, labor, and taxes
• Avoid unexpected cost increases for parts and service
• Save time performing all repairs according to factory standards and specifications by factory-trained technicians at any authorized Freightliner Sprinter dealer using genuine Sprinter Parts
• Select the plan that meets your driving needs
• Choose from flexible payment options—prepay the full amount or build it into your monthly payment
• Plan is transferable to subsequent Sprinter owner
Choose the plan that’s best for you:
• Two services or up to 40,000 miles
• Four services or up to 80,000 miles
• Six services or up to 100,000 miles
• Eight services or up to 160,000 miles

Can be purchased with or without AdBlue® (an environmentally friendly exhaust gas cleaning system).
Freightliner offers innovative options that enhance your Sprinter Van’s capabilities, appearance, performance, comfort, and safety. Select from the many individual options and optional packages that help your Sprinter work smarter and harder for your business. Below is a list of our most popular optional packages. 1. Requires the use of ultra-low-sulfur diesel fuel. Freightliner Sprinters are approved to use BS biodiesel (approved diesel fuel with a maximum 5% biodiesel content). The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit/corrosion-related damages to the system (min. 6h, proven by EN14112 method). Please see your service station for further information. If the BS biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Freightliner Sprinter New Vehicle Limited Warranty does not cover damage caused by fuel standards not approved by Freightliner.

2. Based on a comparison of full-size commercial vans at the time of print.

3. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind velocity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.

4. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.

5. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.

6. From Autoblog, May 30, 2015 ©2015 AOL Inc. All rights reserved. Used by permission and protected by the Copyright Laws of the United States. Printing, copying, redistribution, or retransmission of this Content without express written permission is prohibited.

7. Fuel savings estimate of up to 18% according to FTP75 testing of engine OM651 (4-cylinder) versus MY17 OM642 (V6). Individual mileage will vary, based on factors including vehicle load, driving style, road conditions, and fuel quality.

8. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator’s Manual for additional warnings and information on airbags, seat belts, and child seats.

9. Blind Spot Assist may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a sole substitute for driver awareness and checking of surrounding traffic conditions.

10. Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.

11. COLLISION PREVENTION ASSIST may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system’s alerts before braking, as that may not afford sufficient time and distance to brake safely.

12. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.

13. Unsecured cargo can become hazardous in a collision. Always secure cargo.

14. Must select Cutaway packages F05 or F08.

15. MasterSolutions program vehicles are custom, special-order only vehicles modified by the MasterSolutions provider chosen by you. Although the Daimler Vans warranty does not apply to the modifications, separate warranties, offered by the MasterSolutions Provider, may apply. Details are available from your local dealer.

16. Complete Advantage Lease is not available in Virginia, Washington, Wisconsin, and California. Program coverage is based upon the terms and mileage of selected lease. All service must be provided by an authorized Freightliner Sprinter dealership in the U.S.

17. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.

18. In some states, this is a taxable transaction at lease end. Sales taxes on the purchase will be due in some states. Check with your tax advisor for details.

19. Actual rates, terms, down payment, and program eligibility will be determined by the Daimler Truck Financial Credit Team based upon creditworthiness of customer.

20. Extended Limited Warranty (ELW) is not available in all states. Contact your local Freightliner Sprinter dealer to verify availability.

21. The Sprinter Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.

22. Versus paying for services as you go. Potential savings vary by dealer.

23. Pre-wiring code EV6 required.
