36  Sprinter Specifications
Over 120 years of leadership brought us to this. The Sprinter is an innovative van with a unique inspiration. It’s not about us – it’s about you. It’s the van you would build. Modular. Customizable. Scalable. With hundreds of variations and solutions so you can create a vehicle that’s ready to meet your needs today and tomorrow. It has the brawn to get the job done and the brains to help keep you safe, connected, and cost-efficient along the way. The Sprinter is ready for anything.

**OVER 120 YEARS OF VAN INNOVATION**

1896  Benz company invents the motorized van, dubbed a “combination delivery vehicle.”

1929  Introduction of the Mercedes-Benz L 1000 Express van.

1956  Mercedes-Benz introduces the L 319 and reinvents the light truck segment.

1967  Mercedes-Benz launches a new large-capacity van, the L 408 D.

1977  Mercedes-Benz presents a new van range, internally called the T 1.

1986  The first-generation Sprinter Van launches in Europe and wins “International Van of the Year.”

1995  The second-generation Sprinter enters the European market.

2006  The Mercedes-Benz Sprinter enters the US market.

2010  The mid-size Mercedes-Benz Metris enters the US market.

2015  The Sprinter brings an entirely new concept to the large van segment.

2018  Mercedes-Benz Vans come to the US.
This is your van.

The Sprinter is the next chapter in your success story. We took the leader in safety to the next level with active and passive technology like Active Brake Assist\(^1\) and options such as Traffic Sign Assist\(^2\), ATTENTION ASSIST\(^3\) and the segment-exclusive Blind Spot Assist\(^4\) with Rear Cross-Traffic Alert\(^5\). We refined the Sprinter’s operating efficiency even more to help keep your total cost of ownership low, and gave you more flexibility by adding a turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed transmission as standard equipment\(^*\).

The Sprinter’s design evolution features a reshaped grille, fenders, lights, and rear window. The cabin area redefines comfort with ergonomic seats and a redesigned instrument cluster. The Sprinter takes connectivity into the future with an optional MBUX (Mercedes-Benz User Experience) Multimedia System\(^6\) and advancements that include optional wireless internet access\(^7\), Live Traffic Information\(^8\) and the standard Mercedes-Benz Emergency Call System\(^9\). To monitor your operation, the B2B connectivity services ecosystem can help keep you in touch with your business like never before. The Sprinter is where innovative mobility solutions meet classic Sprinter advantages — for your benefit.

\(^*\)Gasoline engine not available on all models.
From South Carolina — The Sprinter

From performance and durability to capacity and cargo space, there are so many reasons why the Sprinter is a smart investment. But here’s one more: our state-of-the-art, $500 million facility in North Charleston, SC, is now home to up to 1,300 skilled workers committed to helping assemble one of the most advanced vehicles on the road today.
With safety, we’re ahead from every angle.

When we built the Sprinter, we didn’t just aim to set a new benchmark for vans — we set out to make one of the safest vans on the road, period. To accomplish this lofty goal, we brought all of our legendary knowledge, research, and development to the task. Because in the end, when it comes to protecting you and your passengers from danger, no standard is too high.

**SAFETY FEATURES**

**ACTIVE BRAKE ASSIST** This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning followed by initiating autonomous braking.

**ACTIVE DISTANCE ASSIST DISTRONIC** This intelligent cruise control system senses traffic conditions and actively controls your speed to keep you at a safe distance.

**BLIND SPOT ASSIST** has Rear Cross-Traffic Alert (RCTA) which employs automatic braking to avoid a collision with traffic crossing the vehicle’s path (e.g., vehicles or pedestrians) when reversing.

**ACTIVE LANE KEEPING ASSIST** can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

**WITH SAFETY**

**RESCUE ASSIST** first responders to an accident can scan a QR code in a Mercedes-Benz Van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

**HIGHBEAM ASSIST** adjusts the high- and low-beam headlamps automatically, allowing for continuous adaptation to the prevailing traffic situation. The system helps ensure better and earlier recognition of the course of the road.

**ATTENTION ASSIST** helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

**360° CAMERA** When the Reverse gear is selected, this visual parking aid uses four digital cameras to generate various views of the vehicle’s surroundings and show them in real time on the multimedia display.

**CROSSWIND ASSIST** helps stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps ensure that your vehicle remains in its lane at highway speeds.

**HILL START ASSIST** briefly stops the vehicle from rolling backward or forward, giving you an extra level of safety and confidence when making a hill start. Hill Start Assist maintains brake pressure for approximately two seconds, so you can remove your foot from the brake pedal without rolling.

**TRAFFIC SIGN ASSIST** uses a camera to give drivers additional help with identifying speed restriction signs, No Passing zones, and No Entry signs.

**LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP®)** This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels, and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

**ACTIVE LANE KEEPING ASSIST** can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

**DRIVER AND PASSENGER AIRBAGS** The driver and passenger front, thorax, and window airbags help protect you and your passengers in the event of a collision. Sprinter airbags shown are from Model Year 2014.

**HILL START ASSIST** briefly stops the vehicle from rolling backward or forward, giving you an extra level of safety and confidence when making a hill start. Hill Start Assist maintains brake pressure for approximately two seconds, so you can remove your foot from the brake pedal without rolling.

**ACTIVE BRAKE ASSIST** This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning followed by initiating autonomous braking.

**ACTIVE DISTANCE ASSIST DISTRONIC** This intelligent cruise control system senses traffic conditions and actively controls your speed to keep you at a safe distance.

**BLIND SPOT ASSIST** has Rear Cross-Traffic Alert (RCTA) which employs automatic braking to avoid a collision with traffic crossing the vehicle’s path (e.g., vehicles or pedestrians) when reversing.

**ACTIVE LANE KEEPING ASSIST** can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

**TRAFFIC SIGN ASSIST** uses a camera to give drivers additional help with identifying speed restriction signs, No Passing zones, and No Entry signs.
FOR PERFORMANCE

Ready to power your business.

Performance is about having the horsepower, torque, and hauling capabilities to handle whatever you have to do. The Sprinter gives you that confidence, and the flexibility to choose between two drivetrains. You can have turbocharged muscle and the convenience of gasoline in one package with a 4-cylinder turbocharged gasoline engine mated to an industry-leading 9G-TRONIC 9-speed transmission as standard equipment. And for diesel fans, there’s 4-cylinder diesel and 6-cylinder diesel engines with a 7G-TRONIC 7-speed transmission.

A 3.0L V6 turbo diesel engine† with 7-speed transmission is also available. If you don’t want bad weather or road conditions to stop you from getting to work, go for the optional 4x4 drivetrain with on-demand 4-wheel drive.

"...the tried-and-true 3.0 liter V6 turbo diesel...strong pulling power, good fuel economy, and proven longevity."

†"Gasoline engine not available on all models.

TORQUE: IT’S WHAT’S INSIDE THAT COUNTS.

Horsepower numbers are fine, but torque is what your van needs to get up to speed. What’s also important is the rpm at which the peak torque numbers come in. Notice how the Sprinter’s peak torque comes in at 1,400 rpm—just above an idle. This means you’ll be at peak torque quickly—and moving from a standing stop—efficiently.

Performance is about having the horsepower, torque, and hauling capabilities to handle whatever you have to do. The Sprinter gives you that confidence, and the flexibility to choose between two drivetrains. You can have turbocharged muscle and the convenience of gasoline in one package with a 4-cylinder turbocharged gasoline engine mated to an industry-leading 9G-TRONIC 9-speed transmission as standard equipment. Higher satisfaction. Lower cost of ownership.

When you’re looking at a commercial van, there are two cost factors to consider: the cost to buy it and the cost to own it. The Sprinter is designed to deliver cost effectiveness that lasts for years. Combine this with the van’s legendary durability, and the Sprinter will keep your day-to-day costs down and your productivity up – ultimately helping your whole company run more smoothly.

In addition to lowering your total cost of ownership, the Sprinter helps keep drivers efficient and productive with amenities such as:

• Ergonomic seats with lowered sides and lumbar supports
• Comfortable pedal position
• Elimination of display reflections in windscreen
• Optimized noise reduction
• Increased steering wheel adjustability
• Multiple rear-step variations
• Elimination of display reflections in windscreen

• Ergonomic seats with lowered sides and lumbar supports
• Comfortable pedal position

WITH CONNECTIVITY

CONNECTIVITY SOLUTIONS FOR YOUR VEHICLE

COMMUNICATION MODULE — standard in every Sprinter.
This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the permanently installed 4G LTE SIM card.

INTERFACES TO MANAGE YOUR VEHICLES REMOTELY
B2B connectivity provides a comprehensive overview of your vehicle — by simplifying logistics and increasing productivity.

MERCEDES ME CONNECT APP — the direct line to the driver.
The driver can easily access valuable vehicle-related information.

BENEFITS AT A GLANCE

FOR THE BUSINESS OWNER

• Increase overall business efficiency
• Pinpoint the location of your vehicle
• Integrate your vehicle data into fleet management systems
• Monitor your vehicle data effectively

FOR THE DRIVER

• Effective assistance in case of an emergency
• More efficient working procedures with remote access to upcoming maintenance information on the vehicle

BENEFITS AT A GLANCE:

Mercedes me connect is the digital extension of your van. Whether you’re getting customer support or simply checking your fuel, Mercedes me connect is here to make life easier.

• Mercedes me connect provides a quick snapshot of your mileage, fuel level, tire pressure, fluids, and more. Plus you can see your vehicle’s location, and lock or unlock the doors at the touch of a button.

• Enjoy maintenance and support with a personal touch. From maintaining your vehicle to receiving help in the event of an accident, Mercedes me connect provides an additional layer of comfort and safety.

• The Mercedes me connect App provides an overview of your vehicle by housing your remote access services. Download the app today, and take full advantage of your Mercedes me connect services. Available on Android, iOS, and Apple Watch.

For more information, visit our website at https://www.mbusa.com/en/mercedes-me-connect

Making your job easier.

Our B2B connectivity solutions work harder to make your job easier — intelligently connecting drivers and vehicles to increase the efficiency of your business in the long run.

Our connectivity solutions are standard on every eligible Sprinter.
More than a van —
a mobile workspace.

Spend just a moment with its state-of-the-art infotainment system, and you’ll know that the Sprinter was built for you. All the options and controls are placed in “functional islands” and logically incorporated into the overall design of the Sprinter’s cabin, making every action smooth, intuitive, and economical. The results are fewer driver distractions, and increased efficiency and productivity.

THE SPRINTER INFOTAINMENT SYSTEM FEATURES:

- **CHARGING OPTIONS** are strategically located on the dashboard and include USB-C ports, wireless, and 12V chargers.
- **LIVE TRAFFIC INFORMATION** provides traffic data in real-time for more efficient traveling to and from work.
- **SMARTPHONE INTEGRATION FOR APPLE CARPLAY® AND ANDROID™ AUTO®** as well as Bluetooth® capability are available in the Sprinter.
- **WIRELESS INTERNET ACCESS** provides a highly stable connection that allows for the use of mobile devices in the vehicle.
- **MERCEDES-BENZ EMERGENCY CALL SYSTEM** sends out an automatic emergency call for faster arrival of rescue services.
- **7” AND 10.25” TOUCHSCREENS** Display screens that are activated via touch, voice control, or touch buttons on the steering wheel are available on the Sprinter.
- **THE INNOVATIVE MBUX (MERCEDES-BENZ USER EXPERIENCE)** delivers content from navigation to entertainment, and includes optional LINGUATRONIC “Hey Mercedes” voice control and what3words, our geocoded map system.
Thousands of configurations. Unlimited potential.

When we say the Sprinter is ready for anything, we mean that literally.

Choose from thousands of features, configurations, and upfit solutions that give you the ability to build a van that’s ready to work for you now, and prepared to carry your business into the future. It’s the difference between a van that you merely drive and a van that is driven to help you succeed.
SPRINTER CARGO

Maximum effort.

Whatever your work demands are, the Sprinter Cargo Van gives you the flexibility to create a configuration to meet your exact needs. The 1500 is a lighter-duty model that delivers big-time productivity. For serious hauling capability, the 4500 model will handle your heaviest jobs. There’s also a 2500, a 3500, and a 3500XD model. Whichever you choose, the service intervals of up to 20,000 miles for diesel and up to 15,000 miles for gasoline will keep your productivity high and your cost of ownership low.

Sprinter Cargo Vans are available in 1500, 2500, 3500, 3500XD, and 4500 series.

Available on the Single tire models, this wheel arch covering’s square shape and flat top provide extra storage opportunities, as well as protection for the wheel arch.

The rear doors feature hinges with self-locking mechanisms.

LED strip lighting improves cargo-loading vision.

Pallet bracing and tie-downs help when hauling cargo with unusual sizes and shapes.

The Sprinter 4500 model sets the benchmark for payload capacity of up to 6,823 lbs.

Maximum effort.

SPRINTER CARGO SPECIFICATIONS

- ENGINES: 2.0L 4-cylinder turbo gasoline,* 3.0L 6-cylinder turbo diesel (V6), 2.0L 4-cylinder diesel (I4)
- MAXIMUM INTERIOR STANDING HEIGHT: 79.1" *

*Gasoline engine not available on all models.

All measurements in inches. All width measurements include mirrors. See page 40 for a complete listing of models and specifications.
Carrying you forward.

Once again, we’ve created a van to fulfill a specific need. The Sprinter Crew Van seats up to five, and still has room for material or cargo. To fulfill the need for power and desire for the convenience of gasoline, a 4-cylinder turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed transmission is standard equipment.* A V6 turbo diesel engine** with a 7-speed transmission is also available.

The Sprinter Crew Vans are available in 2500, 3500, 3500XD, and 4500 series.

Specifications

The removable 3-seat bench is covered in durable upholstery and gives your crew a roomy, safe, and comfortable ride.

In addition to seating for up to five people, the Sprinter Crew Van features ample cargo space.

A successful future starts with a strong foundation. That’s exactly what the Sprinter Cab Chassis/Cutaway gives you. From a box truck to a technologically advanced RV, its flat, unobstructed frame rails let you design virtually anything you’d like. Motivation for your plans comes from the powerful and efficient V6 turbo diesel engine with a 7G-TRONIC Plus 7-speed automatic transmission.

Ready for your future.

Sprinter Cab Chassis/Cutaway Vans are available in 3500XD & 4500 series.

Choose between the standard 3500XD model (GVWR of 11,030 lbs.) or the optional 4500 model (GVWR of 12,125 lbs.) and build the Sprinter Cab Chassis/Cutaway that works best for you.

The Sprinter’s flat, unobstructed frame rails are the perfect place to bring your vision of the ideal business vehicle to life.

- **Engine:**
  - 3.0L 6-cylinder turbo diesel (V6),
  - 2.0L 4-cylinder diesel (I4)
- **Transmission:**
  - 7G-TRONIC Plus 7-speed Automatic Transmission

**Maximum Towing Capacity:** 7,500 lbs.

**Seating Capacity:** Up to three

All measurements in inches. All width measurements include mirrors. See page 46 for a complete listing of models and specifications.
Whether you’re on the job or off the main road, you can run up against situations you can’t control, like bad weather or rough terrain. You can try and avoid them, or meet them head-on with the on-demand 4-wheel drive option. The Sprinter 4x4 features a higher wading depth, a low-range gear, and a standard V6 turbo diesel engine that can power you through even the toughest conditions.

Make your own roads.

Sprinter 4x4 Vans are available in 2500 & 3500XD series.

The Sprinter 4x4 option is available in select Cargo, Crew, or Passenger Van configurations.

All measurements in inches. All width measurements include mirrors. A complete listing of models and specifications begins on page 40.
Your one stop for productivity.

You’re the expert in your trade, and your van is the tool with which to get the job done. MasterSolutions™ allows you to quickly configure your van and order directly via your Mercedes-Benz Vans dealer to get you exactly the van you want right when you need it, so you can concentrate on finishing the job.

Build your van now or get inspired by visiting the MasterSolutions™ Configurator.

MasterSolutions™ providers Auto Truck, Knapheide, and Driverge bring you a portfolio of turnkey solutions for your specific line of business—HVAC, Plumbing, Electrical, Telecommunication, Contracting, Delivery, Refrigeration, Food Services, and People Moving—all at a preferred price. These preconfigured solutions from industry-leading manufacturers are customized to fit your Mercedes-Benz Van. The ordering process is streamlined, and installation is simple: all MasterSolutions™ can be fitted directly as Ship-Thru, right next to our factory in South Carolina, which saves you time and ensures seamless integration, quick delivery, and consistent quality.

Get your concept up and running.

You have a concept in mind—let a Mercedes-Benz Vans MasterUpfitter build it for you. Our job is to help you find a van that is ready to fit your ultimate conversion needs. With the Best-in-Class cargo volume of the Sprinter, and the impressive 7,429 lbs. of payload of the Sprinter 4500 Cab Chassis/Cutaway, each Mercedes-Benz Van is a blank canvas on which you can create a design to meet your specific needs. Whether you are in need of a simple work van interior, a mobile veterinarian clinic, or the ultimate RV, Mercedes-Benz Vans is making you mobile and taking your business to new places.

Qualified Upfitters adhere to the Upfitting Guidelines to become part of the Mercedes-Benz Vans MasterUpfitter network. These upfitters are committed to the highest engineering standards and levels of customer satisfaction. Working with a MasterUpfitter gives you the flexibility to be creative and the assurance that Mercedes-Benz Vans is here to support your needs. Find your MasterUpfitter today.
FINANCE SOLUTIONS

We have your back.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you, it isn’t a van—it’s a tool you need to make a living.

For more information, visit www.mbvans.com/sprinter/mercedes-van-parts-and-services

ROADSIDE ASSISTANCE

All Mercedes-Benz Vans come standard with our 24-hour Roadside Assistance Program and expert advice 24/7 through the Mercedes-Benz Customer Assistance Center, providing you with peace of mind and help when you need it most.

ServiceCARE — Service solutions built for you

Whether it’s a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

Maintenance (PPM)

Keeping your van in top shape

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

Complete

The all-inclusive service package

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

Extended Limited Warranty (ELW)

More warranty. More certainty.

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs, and without any deductibles, you get the benefit of predictable and attractive conditions.

### STANDARD FEATURES

#### MECHANICAL

- Engine: 2.0L 4-Cylinder Turbo Gasoline
- YG-TRONIC 9-Speed Automatic Transmission
- Generator: 4V/250A
- SULEV Emissions: 3rd Generation SCR Emission Control System
- Service Interval: Up to 15,000 miles  
  - Service Interval: Up to 20,000 miles  
  - Fuel Filter with Water Separator

#### SEATING

- Adjustable Driver Seat: Dual-Circuit 4-Wheel Disc Brakes
- Adjustable Front Passenger Seat: Front and Rear Mudflaps
- Amort for Driver Seat: Heated and Electrically Adjustable Exterior Mirrors
- Amort for Front Passenger Seat: Rear Doors Opening to Side-Wall (optional on 144" & 170" models)
- Fabric, Mattress Black: Red Diesel Filler Cap (Diesel only)
- Windshield with Fiber Band: Jack, Hydraulic
- Window Side Airbags, Driver/Passenger: Keyless-Start

#### TIRES & WHEELS

- All-Season Tires: 4-Wheel Anti-Lock Braking System (ABS)
- Unspecified Tire Brand: Active Brake Assist
- Airbag, Driver/Passenger Front: Backup Management
- Airbag, Driver/Passenger Rear: HOLD Function

#### SAFETY & SECURITY

- Active Brake Assist: Headlight Assist
- Airbag, Driver/Passenger Front: Window Side Airbags, Driver/Passenger
- Breakdown Management: Crosswind Assist
- Emergency Call System
- Seat Belt Reminder, Driver/Passenger
- Headlight Assistant: Thorough-Pelvis Side Airbags, Driver/Passenger
- HOLD Function: Lush-Adaptive Electronic Stability Program (ESP®)

- Front track: 61.4" (3500XD), 64.4" (4500)
- Width: 99.4" (3500XD), 103.1" (4500)
- Height: 94.1" (3500XD), 94.0" (4500)
- Length: 226.9" (3500XD), 238.7" (4500)

**TUMES & WHEELS**
- Front axle reinforced (standard on 4500 model)
- Engine oil level display at cold start
- End crossmember bolted
- Cutoff relay for additional battery
- Tire pressure monitoring system
- Rear axle reinforced (standard on 4500 model)
- Rear wheel chocks

**SAFETY & SECURITY**
- Rocker guard
- Trailer hitch
- Roof rack basic carrier
- All-season floor mats
- Rooftop box
- Folding table (requires base module)
- Trailer hitch
- Rocker guard
- Trailer hitch
- Roof rack
- Folding table (requires base module)

For paint availability, please contact your dealer.
Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature, and/or lane layout of the road or every movement of vehicles ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system’s alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator’s Manual for system’s operating speeds, and additional information and warnings.

2. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver, and cannot be relied on to avoid an accident or serious injury.

3. Blind Spot Assist is a warning system only, and may not be sufficient to avoid accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator’s Manual for system’s operating speeds, and additional information and warnings.

4. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity, or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator’s Manual for additional information, tips, and warnings.

5. Active Distance Assist DISTRONIC® is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead, or the movement of vehicles ahead. It is the driver’s responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking, and other driving inputs necessary to control the vehicle. Do not rely on the system’s alerts but remain attentive to traffic and road conditions. See Operator’s Manual for system’s operating speeds, and additional information and warnings.

6. 360° camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.

7. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind stability and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.

8. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.

9. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child in a rear seat, bolted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator’s Manual for additional warnings and information on airbags, seat belts, and child seats.

10. Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift, and cannot be relied on to avoid an accident or serious injury.

11. Requires the use of ultra-low-sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content). The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-, corrosion-related damages to the system (min. 6h, proven by EN 14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz Sprinter Van Limited Warranty does not cover damage caused by fuel standards not approved by Mercedes-Benz Vans.

12. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Checklist for details.

14. Traffic Sign Assist is not a substitute for driver awareness to posted speed limits and other conditions. Driver is responsible for safely operating vehicle in accordance with local traffic laws and driving conditions.

15. The available data can vary according to the vehicle model. The tire pressure can only be shown on certain model configurations. Display of the AdBlue® level is only available in conjunction with the optional SCR Generation 3 emissions control and only available with diesel models.

16. The Remote Control function via the Mercedes me connect App makes it possible for you to view the status of the doors and windows. The driver is also able to unlock the vehicle using a code via the Mercedes me connect App, and also check the status of and operate the auxiliary heater. This function is only available in conjunction with an optional auxiliary heater (hot-water heater).

17. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.

18. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. For additional information, see terms of the B2B connectivity and provider of your choice. Although the MBUSA warranty does not apply to the modifications, separate warranties offered by the MasterSolutions™ provider may apply. Details are available from your local dealer.

19. Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.

20. Actual rates, terms, down payment, and program eligibility will be determined by the Mercedes-Benz Financial Services Credit Team based upon creditworthiness of customer.

21. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.

22. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire.

23. Service charges may apply depending on the amount of data used. In addition to a data contract with AT&T, either an MBUX multimedia system with 17.8 cm (7-inch) touchscreen and navigation, or satellite radio or the MBUX multimedia system with 26 cm (10.25-inch) touchscreen is required.

24. The CarePak™ is a product of Apple Inc. Android™ Auto is a product of Google Inc. Device and app providers’ terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content, and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device’s network connection. Data usage is routed through device and subject to fees, charges, and restrictions in your user’s wireless plan.

25. Requires the use of ultra-low-sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content). The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-, corrosion-related damages to the system (min. 6h, proven by EN 14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz Sprinter Van Limited Warranty does not cover damage caused by fuel standards not approved by Mercedes-Benz Vans.

26. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Checklist for details.

27. The information from this service is shown on the touchscreen of the multimedia system. Live Traffic Information can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. While the navigation system provides directional assistance, the driver must remain focused on safe driving behavior, including paying attention to traffic and street signs. The driver should utilize the system’s audio cues while driving and should only consult the map or visual displays once the vehicle has been stopped in a safe place. Maps do not cover all areas or all routes within an area. Please follow all applicable federal, state, and local laws and restrictions.

28. A valid subscription to Live Traffic Information is necessary to use Car-to-X Communication. Car-to-X Communication can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. Only the data of vehicles directly affected by the event and equipped with Car-to-X Communication are processed, therefore you may not always receive a timely warning of hazards through this system.
